! WARNING

It might lead to an unexpected accident such as falling out from an opening, or suffocation. Please adjust and secure all the components (belt, buckle, ect).
Seat or unseat baby at a safe place to ensure the baby cannot fall from the carrier.

When the carrier is in use, please do not run, jump, lean forward more than 45 degrees, or lean to the side. Otherwise, baby may accidentally fall from the carrier.
When you do action such as picking up a thing, support child by hand and please kneel down so that child's head does not turn down.

In cuddling position, always support baby with your hands. The baby's unexpected movement may cause it to fall from the carrier.

Pay attention if baby's face is too close to user's body, or it is pressed by user's chest, or baby's neck is bent, this may affect baby's airway and makes it difficult to breathe.

Do not re-modify or improper repair the product. Otherwise, it may damage the product and may cause accident.

Cuddling and back carrying is not applicable to baby whose neck muscles are not yet developed, otherwise the baby may become tired, exhausted or cause injury.

In cuddling or back carrying position, the waist pad should be under the baby's legs. Otherwise, it may press against baby's legs.

Please do not put any sharp things into the pocket. Baby might bear an injury.

In cuddling or back carrying position, if baby's armpit presses against the carrier sheet, adjust the baby's position. Otherwise, unexpected burden or injury may be inflicted to baby.

Please do not use it on vehicles other than train, bus and high-speed railway.

When doing the housework, pay enough attention not getting hurts from the kitchen knife, burns from the stove and falls from bending forward.

! CAUTION

Do not use the carrier continuously for more than 2 hours, or within 30 minutes after feeding. Otherwise, the baby or user may experience discomfort.

Check baby's conditions regularly, stop using the carrier at once if any abnormal facial expression from baby is seen.

Stop using the carrier immediately if you experience pain or discomfort.

When using in the cuddling position, please watch your step.

In the event that any damage to the product is found, cease using the carrier immediately.

Do not leave the carrier near fire or outside. Otherwise, buckles or other fabric parts may be deteriorated by heat or rain which may in turn become cause of accident.

Do not use this product for the purposes other than those stated in this manual to avoid any damage to the product.

Do not let the baby place their fingers into an unfastened buckle as they may become stuck and cause injury. Please fasten the buckle even if you are not using the product.

Name of components

How to use for face-in or face-out cuddling

1 Fasten waist belt buckle.

Fasten the waist belt buckle until a “click” sound is heard.

Point : To reduce the burden, it is recommended to wear the waist pad at the lower waist around the hip. User should adjust it to his/her comfortable position.

2 By adjusting the waist belt, make the seat facing to the front.

Excess length of waist belt can be folded and tied using the belt loop band as shown in the illustration.

3 Seat your baby on the hipseat.
